

*Hello Vinewood Families,*

*I hope everyone is having a safe and enjoyable summer break. On behalf of our staff, we extend a warm welcome to all our students and families. Vinewood's staff and I are looking forward to building a positive relationship with all of you through clear communication and a caring attitude. I believe in collective vision and goals where every student will succeed with happiness which is established by creating a learning environment where the whole school community feels safe, supported, and respected.*

*We will continue to have safety protocols in place for the well-being of everyone on campus. Please assist us in keeping a safe campus by conducting a rapid antigen test on your child before the first day of school. The first attachment at the bottom of this email is our district's quarantine protocol. Please know that masks are still optional to begin this school year.*
